ACCREDITED STUDY PROGRAMME FOR THE ACADEMIC YEAR 2018/2019

DOCTORAL DEGREE STUDY PROGRAMME	
FULL-TIME STUDY	PART-TIME STUDY
LENGTH OF STUDY 3 YEARS	LENGTH OF STUDY 4 YEARS
-	Forensic Engineering
* <i>standard tuition fee for part-time study programme is 1.000 € for an academic</i>	

Detailed information on particular study programmes

- syllabus,
- course information sheets

can be found at <http://vzdelavanie.uniza.sk/vzdelavanie/plany.php>.

EXPECTED NUMBER OF ACCEPTED APPLICANTS TO THE FIRST YEAR:		
DOCTORAL DEGREE STUDY		
STUDY PROGRAMME / FIELD OF STUDY	PLANNED CAPACITY	
	FULL-TIME	PART-TIME
Forensic Engineering / Forensic Engineering	-	5
Total number	-	5

TERMS AND CONDITIONS OF ADMISSION

1. **The fundamental prerequisite** of being accepted to the postgraduate study program (third degree) is full completion of the second degree of the university study according to § 56, Subsection 3 (Higher Education Act, n. 131/2002 Coll.).
2. **Language competence** – written and oral command of Slovak language (foreign students – written and oral command of German or English language).
3. **Health certificates** – UNIZA does not require any health certificates and accepts all the applications without any health certificates for all degrees of the university studies.

FORMS OF ADMISSION

Selection Procedure

- Completion of the second degree study programme in the same or related field of study (a list of related fields of study is available at [http: www.akredkom.sk](http://www.akredkom.sk) – System of fields of study).
- For applicants for the part-time form of study their abilities and assumptions arising from the practice of field will be taken into account as well.
- Passing of the entrance examination. The examination consists of two parts. In the written part the candidate's language competence in a form of a written test is being tested (English, German, French or Russian – supplied by the Institute of Continuing Education). The oral examination takes place in front of the Examining Board. The content of the oral examination is to present the intention of solution of the selected dissertation topic, including the reasons for the selection, verification of technical and scientific knowledge and the orientation of the candidate in the field he/she is applying for.
- The evaluation shall also include an assessment of the results of previous studies and prerequisites for independent scientific work of the applicant as well.

Rules of Selection Procedure

The admission procedure for the doctoral degree studies for the university study programme is regulated by the Higher Education Act. 131/2002 Coll. and the UNIZA Directive no. 110, as amended by amendment no. 1 and 2 “The Study Regulations for the third degree of university studies at the University of Žilina”.

The Admission Committee issues a proposal of the successful (and not successful) candidates based on the order of candidates that is submitted to the Rector of the University of Žilina.

The candidate processes his/her presentation of the selected topic he/she has applied for. The presentation shall last up to 10 minutes and the outline of the presentation is as follows:

1. Title page (title of the topic, field of study, name of the supervisor, name of a doctoral candidate).
2. Proposal of the problem to be solved and motivation for solution.
3. The so far existing solutions in the field.
4. Possible use of methods, techniques and experiments in order to solve the problem.
5. Anticipated benefits.

Evaluating of the results of selection procedure

The result of the selection procedure will be announced to the applicants in writing in accordance with the Higher Education Act. 131/2002 Coll. within 30 days from the date of the entrance examination. In the absence of the selection procedure for health reasons the candidate will be able to participate in the selection procedure only if the central body lists another term of the selection procedure.

ADMISSION OF FOREIGN STUDENTS

The same terms and conditions of admission are applicable as for the applicants from abroad as for the applicants from Slovakia.

HOW TO APPLY

Application forms are to be submitted for individual study programmes and for a topic listed by a supervisor of given study programme.

Applicants have to fill in the form Prihláška na vysokoškolské štúdium - 3. stupeň or they can also use an electronic application form that can be found on the university website: <https://vzdelavanie.uniza.sk/prijimacky/index.php> or on the education portal: <https://prihlaskavs.sk/sk/>.

Even in case of electronic application form, it is required to print it, sign it, enclose other required documents including the proof of payment of the fee and send it to the address UZV (Institute of Forensic Research and Education UNIZA, Department of Science and Research, ul. 1. mája 32, 010 26 Žilina, within the stipulated deadlines.

Incomplete application form or application sent after the deadline will not be accepted.

In the absence or failure of entrance exams, UNIZA does not refund the admission fee.

Enclosures for the doctoral degree study programmes (to be sent with the application form):

- Curriculum Vitae,
- certified copies of the highest level of education,
- in the case of the education acquired in abroad; the proof by the Ministry of Education, Science, Research and Sport of the Slovak Republic on the recognition of the university studies of the second degree completed outside the Slovak Republic,
- a list of the so far published technical and scientific papers (in case the candidate has published),
- documents proving other professional activities,
- the original proof of payment of the admission fee,
- intention of the solution of the chosen dissertation topic (topic, candidate, supervisor, justification of the choice of the topic, methods, techniques or experiments of the solution, expected results and benefits of the solution in the range of 5 - 8 pages).

Admission fee:

20 € to be sent to:

Žilinská univerzita v Žiline, Univerzitná 1, 010 26 Žilina

Bank: Štátna pokladnica

IBAN: SK69 8180 0000 0070 0037 5349

const. symbol: 0308

variable symbol: 13233

Payment method:

payment can be paid by bank transfer or postal order to the account above.

Proof of payment:

proof of payment is to be sent to UZV UNIZA with the application form.

Tuition fees - in accordance with the Higher Education Act, information about the amount of tuition for the respective academic year will be announced on the website of the University of Žilina.

With payment of the admission fee from the EU member states, the EES countries, territories that are considered a part of the EU (Treaty of Rome, Section 299) and SEPA countries, it is necessary to use BIC: **SPSRKBAXXX**, IBAN: **SK69 8180 0000 0070 0037 5349**.

USEFUL DATES

Deadline for submitting the application form	Entrance exams
until June, 4, 2018	June, 28, 2018

The date of admission of accepted doctoral students to doctoral studies is September, 1 in the respective academic year.

Tuition fees

- part-time form of study (4 years)
The standard tuition fee for the part-time study programmes is specified at 1.000 € for an academic year in accordance with the Higher Education Act 131/2002 Coll. and the UNIZA Directive No. 116, Annex 1, Article 2.

GRADUATE PROSPECTS

DOCTORAL STUDY PROGRAMMES

FORENSIC ENGINEERING

(Field of study 5.2.58 Forensic Engineering)

The graduate of the doctoral study in the field of Forensic Engineering is a highly qualified expert in the field of transport and construction with focus on problem solving in the field utilising modern calculation methods, experimental analysis and diagnostics. He/she receives broad theoretical basis for modelling based on modern numerical calculation methods and application of existing of current software engineering resources. He/she masters new procedures, methods and tools useful for the assessment of complex mechanical systems and building structures as well as their diagnosis and analysis and is able to utilise them effectively in demanding expertise.

The graduate´s profile is based on the requirements placed on technical forensic experts in the field of road transport and construction. He/she is oriented to manage separate solutions of research and experimental tasks in the field of technical diagnostics, analysis of traffic accidents and evaluation of road vehicles or buildings (depending on the relevant field).

Graduates will find employment in the working groups of forensic experts and research laboratories developing new methodology for analysing of accidents, diagnostic procedures of investigating the nature and extent of the damage to vehicles for the purpose of analysing of accidents or determining the cost of repair and solving research projects in the field of evaluation of vehicles for expert or insurance purposes (focus on road transport). In the construction field it is mainly analogically derived field of failures of buildings and their valuation methodology.

Theoretical knowledge

The graduate of the doctoral study gains theoretical expertise of a wider range of related disciplines, reasonably selected, taking into account his/her personal orientation in scientific research. Theoretical knowledge is obtained through subjects such as: Applied Mathematics, Applied Mechanics, Building Physics, Forensic Engineering, Selected sections of legislation and other 19 subjects of specialization, from which the doctoral student chooses two subjects.

Additional knowledge, skills and abilities

The student passes an exam in one of the world´s languages during the studies. He/she undertakes the teaching practice within maximum 4 hours a week.

During the study he/she acquires principles, approaches and methodologies of scientific work and being guided by his/her supervisor he/she devotes to independent research work. He/she gains the ability to identify problems and formulate key objectives and research methods to be able to draw conclusions for the development of theoretical knowledge and for its practical application.
